Chief, Producers' Equipment Branch, D/I/RR

DEX Run on Precision Optical Equipment in East Germany.

1. This branch is currently preparing a contribution to the East German MIS, Section Gb. Information is particularly needed in the field of precision and optical equipment, and especially for such categories as production, plant data, and imports and exports during the period 1955 to the present.

2. It is believed that a DEX run would be helpful in furnishing such information. This information is needed by no later than 27 August.
